

Curriculum Vitae

Anneka Saunders

SPECIALITY

Camera Operator

BIO

Having started in post-production, Anneka then made the move to the kitroom, starting her career as a DIT on various productions. Her love of cameras meant she didn't sit at a laptop for very long, and she has since established herself as a hard-working and popular camera-assistant. Anneka has recently moved on to operating and is going from strength to strength. As with all in-house crew at S+O, her experience and constant exposure/handling of equipment, whether in the kitroom or out on shoots, has ensured her technical prowess is second-to-none. Anneka is also still very happy to data wrangle when needed.
