

CABLE STRIPPER

The Almex Cable Stripper will cleanly strip conveyor belt steel cables either on-site or in a belt shop. It strips quickly without turning the belt and is easy to handle, saving you time over manual stripping systems. Steel cables stay surrounded in a thin rubber layer so the core rubber adheres in the splice.

FEATURES:

- Cutting unit for cable pitches up to 25mm and cable diameters up to 14mm.
- Rubber cover thickness up to 12mm (running side) and 25mm (carrying side).
- Pulling winch offers the necessary force to strip a steel cable.
- Slide unit secures and stabilizes the pulling winch. Available in 3m lengths or 4m widths.
- Two-person operation.

* Bar slide and winch sold separately

PRODUCT CODE	DESCRIPTION	SPECS
BAT-CSM-001	Cutting Unit	steel cable belt stripping unit with basic operating accessories
BAT-TB-8.9	Top blade holder, No. 1	for cables up to 8.9mm diameter
BAT-BB-8.9	Bottom blade holder, No. 1	for cables up to 8.9mm diameter
BAT-TB-9.7	Top blade holder, No. 2	for cables up to 9.7mm diameter
BAT-BB-9.7	Bottom blade holder, No. 2	for cables up to 9.7mm diameter

*See Spec Sheet for more blade sizes
