

BELT CLEANING BRUSH PAD

The Belt Cleaning Brush Pad offers a unique solution to cleaning belts with a profiled surface including those with sidewalls and cleats.

FEATURES

- Works very well on cleaning products that are profiled and require deburring
- A flat pad with 2" fingers which can be adhered to a shaft and mounted in the pulley area
- Back surface already prepared for easy installation
- Works in belt cleaning applications such as chip belts in pulp and paper and cleaning cement blocks
- Can be mounted on any existing pulley
