

## T6 CONTROL PANEL

The T6 control panel is designed to replace the T3, T4 and T4P controllers. The T6 monitors and controls the platen temperature with similar components as previous models. Encased in a durable IP66 rated, waterproof, dustproof and impact resistant case, it can withstand all types of conditions, including extreme weather and moisture. The simple, rugged design allows easy access to all components. Protected fuses are installed on the face of the box for ease of replacement.

### FEATURES:

- IP66 rated
- 24 lbs. / 10.88 kg
- All units include a pump plug
- All platen and control fuses are face mounted and easily accessible.
- 3 phase ammeter for element and power monitoring
- Rugged polypropylene resin case
- 15 amp, 30 amp and 45 amp versions
- Includes main supply and platen cables in a separate case
