Lead UI/UX Designer

Location: Hong Kong

As the lead UI/UX designer you are in charge of the Product Design team at Quantifeed creating world-class investment products for our clients all over Asia

A great leader with the ability to maximize the talent of the team and be their manager, coach, and critic.

You are well versed in multiple areas of design and have to oversee the full lifespan of the products: understanding business objectives, seek to identify and address problems and create intuitive designs.

With a driven focus on exceeding the customer's need and expectation, you will bring the next generation of digital financial services to mass consumers and wealth management professionals.

Responsibilities

1. Leading Quantifeed's Product Design team and the overall visual design direction our products.
2. Facilitate discovery workshops with prospects and clients to understand business and technical requirements and make informed design decisions.
3. Rapid prototyping and iterating to demonstrate interactive experiences and communicate design concepts with solid rationale to internal and external stakeholders.
4. Produce personas, wireframes, flow diagrams and low/high fidelity mock-ups to effectively communicate interaction experience with key stakeholders, product managers and engineers.
5. Knowledge and understanding of the capabilities and constraints of web front-end technologies including HTML5, CSS, JavaScript, Bootstrap as well as iOS. components and Material Design.
6. Performing metrics analysis post-launch to inform design/UX optimization.

Requirements

1. At least 5 years of industry experience as a UI/UX designer and/or manager in a cross-functional design team, dedicated to the complete design and development lifecycle of several successfully launched desktop and mobile applications.
2. Bachelor or master's degree in a related field (design, marketing or technology).
3. Portfolio showcasing design work examples that demonstrate your design thinking process, knowledge of best practices and standards, and a deep understanding of mobile-first and responsive design. Understanding of user research and usability testing is highly appreciated.
4. Working knowledge of the latest design tools such as Figma, Invision and Adobe Creative suite. Knowledge of Visio, HTML5 and CSS3 is a plus.
5. Ability to work with clients and product owners to understand detailed requirements and create designs and experiences that meet client needs.
6. Ability to work in a start-up environment and is adaptable, flexible, and comfortable with ambiguity.
7. Be open to receiving feedback and improving upon it.
8. Multi-tasking and time-management skills, with the ability to prioritize tasks.
9. Knowledge or interest in finance and wealth management is preferred.
10. Excellent communication, written and verbal, in English to work with senior stakeholders across presentations and obtain ideas buy-in. Cantonese and Mandarin is a plus.
