- An introduction to the Design-Build Team, Traylor-Shea Joint Venture
- An overview of the RiverRenew Tunnel Project schedule

The following is a summary of the questions asked by the Workgroup and the answers provided by staff:

- **Mayor Wilson asked what the completion of the 108 to 116 Million Gallons (MGD) per Day Expansion Project allows AlexRenew to accomplish.**

Ms. Pallansch explained this project allows AlexRenew to push 116 MGD through the head of the plant to help manage wet weather flows.

- **Mayor Wilson asked if, by amending the Outfall Transfer Agreement, AlexRenew was proposing any changes to the existing permitting process.**

Ms. Pallansch clarified that the Outfall Transfer Agreement amendment provides timelines and roles and responsibilities for RiverRenew Tunnel Project permitting.

- ***Mayor Wilson asked if the City should plan to allocate dedicated resources to facilitate the permit approval process.***

Ms. Bevis-Carver stated that the City and AlexRenew have been coordinating closely to ensure resources are available to meet RiverRenew Tunnel Project permitting demands.
