

SSP MAX

CUSTOM FRAME VULCANIZING PRESS

The Super Spotter Max line of vulcanizing presses for heavyweight rubber belt maintenance. Use these presses to repair small tears and punctures. Each SSP MAX is designed and assembled with the following components.

FEATURES:

- Strong Frame
- Easier to handle design
- In frame controls
- Corrosion free aircraft grade aluminum frame
- Available in two sizes: 60" and 78"

SPECIFICATIONS

- **PLATEN** Utilizes innovative Almex flexible platen constructed from extruded plank, silicone heating element and durable composite insulation. Each platen contours to the belt's irregularities, ensuring uniform results. Maximum temperature 163°C (325°F). Available Platen Sizes: 300mm x 300mm (12"x 12").
- **FRAME** Aluminum C-Frame with handle for easy, one man handling. Two sizes are available for use on belt widths up to 1500 mm (60") and 1980 mm (78"). Complete with plate carrying case.
- **CONTROL PANEL** Thermostatic control panel pre-set with dual voltage standard. Also available with remote and CE approved controls.
- **PRESSURE** Pressure bag ensures uniform pressure across splice surface. Maximum air bag operating pressure is 100 psi or 7 kg/cm².
