

Certificate Training

Candidate Name **Aleksander Srokosz** GDC 258317

Date 14-11-2019

Expires 14-11-2020

Learning outcomes achieved during 3 Hours Emergency Life Support Training.

This activity meets the educational criteria required for verifiable Continuing Professional Development under the General Dental Council Lifelong Learning scheme and represents 3 hours of verifiable CPD.

The objectives for this Medical Emergency Training are as follows:-

For each staff member to have a good understanding of the assessment process used during the management of the seriously ill patient.

Each staff member should initiate the emergency service 999 where appropriate. Additionally, ensuring the safe delivery and use of drugs/ equipment throughout the emergency event.

Candidates are expected to take part in group work and role play using the equipment and Drugs in a realistic manner demonstrating correct and appropriate use of each.

Throughout this training the candidate will receive

Defibrillator Training using the Philips Heartstart FR2 machine

In addition, clear guidance on all Emergency equipment held within the establishment will be given, covering storage, maintenance and step by step instructions of use.

An inspection and guidance for all Drugs kept for use during Emergency procedures will also be undertaken.

This training covers management of the seriously ill patient with conditions such as :

Asthma, Anaphylaxis, Angina /Myocardial Infarction,
Seizure, Stroke/CVA, Hypoglycaemia
